

# **SAFETY RECALL NOTICE**

## **STOP USE**

November 2020 Update

### **ATTENTION ALL 2018 PURCHASERS OF THE X-STAND TREESTANDS APACHE (XSCT355) CLIMBING TREESTAND**

Dear Consumers:

In cooperation with the U.S. Consumer Product Safety Commission, Alliance Outdoor Products, Inc. d/b/a X-Stand Treestands is conducting a voluntary recall of certain 2017 model year climbing treestands, including the Apache (XSCT355). The cable assemblies on the climbing treestand may separate due to corrosion, posing a fall risk to users, which can lead to serious injury or death. There have been five incidents reported, resulting in two injuries. Our records indicate that you purchased an X-Stand Apache climbing treestand in 2018.

#### **What to do next?**

- **Please stop using the treestand immediately.** We are asking all consumers to destroy all affected cables.
- Please check the batch number on the tree stand. There is a metal plate riveted to the stand that ends in “17”. If the product you purchased has the batch number “5X-5317 than it falls within the scope of the recall.

#### **What is new?**

We are offering consumers two options as a remedy. The options are:

- Option 1: A replacement gift card to purchase another tree stand. It will be valued at the original retail price.
- Option 2: Obtain a free replacement cable assembly. You will be asked to provide your name, telephone number, mailing address and to verify you have the affected treestand batch numbers. FedEx will deliver the replacement cable assemblies to your address – all at no cost to you. Our estimated delivery time will be approximately four weeks.

**Our contact information can be found below: Customer Service at (877) 886-2241 between 8:00 a.m. and 5:00 p.m. CT Monday through Friday, via first class mail to: 21673 Cedar Ave S, Lakeville, MN 55044 or website: <https://www.x-stand.com> for further instructions.**

***Note:** To determine if the treestand cables you have are affected by this recall, identify the model number and batch number on the small tag riveted on the treestand platform. The affected batch numbers are as follows:*

<u>Model#</u>	<u>Name</u>	<u>Batch Number</u>
<b>XSCT355</b>	<b>Apache</b>	<b>5X-5317</b>

We apologize for this inconvenience, but your continued safety is our primary concern at X-Stand Treestands.

Sincerely,
